

AMENDMENT

U.S. Application No.: 10/088,229

Attorney Docket No.: Q61659

AMENDMENTS TO THE SPECIFICATION

Please replace the paragraph beginning at page 4, line 14 with the following rewritten paragraph:

In order to overcome these problems, ~~JP-B-55-395533~~ JP-B-55-39533 (the term "JP-B" as used herein means an "examined Japanese patent publication") describes a method for producing a compound having a vinyl ether group at the terminal and having a maleate structure in the inside, and British Patent 1,188,112 describes a compound having an allyl ether group at the terminal and having a maleate or fumarate structure in the inside.
